

## FACT SHEET

Sperry  
Sperry Park Facility  
3333 Pilot Knob Road  
Eagan, Minnesota 55121  
MND 000 823 914

In accordance with the requirements of Minnesota Rules, chs. 7001 and 7045, the Minnesota Pollution Control Agency (MPCA) operates a permitting program to regulate the treatment, storage and disposal of hazardous waste to ensure the protection of human health and the environment. The rules require the MPCA to issue and enforce permits to facilities that treat and/or store hazardous waste in the State of Minnesota if the facilities are designed and operated in accordance with all applicable rules. The permits issued by the MPCA will require each facility to comply with the regulations pertaining to design, operation, performance, accident preparedness and prevention, closure and financial responsibility.

### A. Facility Description

The Sperry Corporation manufactures semiconductors and performs research work creating hazardous wastes. These wastes are: heavy metals, cyanide salts, corrosives, PCB's and solvents which are stored in 55-gallon drums in the flammable and nonflammable hazardous waste storage rooms. Sperry requires a hazardous waste permit due to the storage of hazardous waste for periods longer than 90 days prior to the disposal of the wastes off-site. The hazardous waste permit will be valid for five years from the date of issuance and requires Sperry to comply with the Facility Standards of Minn. Rules chs. 7001 and 7045.

### B. Conclusions

The permit specifies the conditions in which the Sperry Corporation located at 3333 Pilot Knob Road, Eagan, Minnesota, may store their hazardous waste

until shipment off-site for disposal is achieved. The conditions of the permit are set forth in accordance with Minn. Rules chs. 7001 and 7045. The MPCA draft permit and Sperry's permit application will be on display for public review at the Eagan Library, 1340 Wescott Road, Eagan, Minnesota beginning August 1, 1985 and ending September 16, 1985. During this public notice period, comments or requests for a public informational meeting or contested case hearing may be submitted to the MPCA along with the following:

1. A statement of the person's interest in the permit application and the draft permit;
2. A statement of the action the person wishes the agency to take, including specific references to sections of the draft permit that the person believes should be changed;
3. The reasons supporting the person's position, stated with sufficient specificity as to allow the director to investigate the merits of the person's positions; and
4. A statement of the reasons the person desires the MPCA to hold a public informational meeting or contested case hearing and the issues that the person would like the MPCA to address at the meeting or contested case hearing.

All comments will be considered. Changes to the draft permit may be made provided the changes are in accordance with all State and federal rules and regulations. Inquiries and/or comments may be directed to Mr. Ross Ohman of the Hazardous Waste Permits and Review Unit at 612/296-7280 and mailed to:

Mr. Ross Ohman  
Minnesota Pollution Control Agency  
1935 West County Road B-2  
Roseville, Minnesota 55113-2785

## FACT SHEET

Sperry, DSD  
3333 Pilot Knob Road  
Eagan, Minnesota 55121

The MPCA draft permit and Sperry's permit application will be on display for public review at the Eagan Library, 1340 Wescott Road, Eagan, Minnesota beginning June 17, 1985 and ending August 2, 1985. During this public notice period, comments or requests for a public informational meeting or contested case hearing may be submitted to the MPCA along with the following:

1. A statement of the person's interest in the permit application and the draft permit:
2. A statement of the action the person wishes the agency to take, including specific references to sections of the draft permit that the person believes should be changed;
3. The reasons supporting the person's position, stated with sufficient specificity as to allow the director to investigate the merits of the person's positions; and
4. A statement of the reasons the person desires the MPCA to hold a public informational meeting or contested case hearing and the issues that the person would like the MPCA to address at the meeting or contested case hearing.

All comments will be considered. Changes to the draft permit may be made provided the changes are in accordance with all State and federal rules and regulations. Inquiries and/or comments may be directed to Mr. Ross Ohman of the Hazardous Waste Permits and Review Unit at 612/296-7280 and mailed to:

## PUBLIC NOTICE

The Minnesota Pollution Control Agency (MPCA) is hereby giving notice of its intent to issue a Minnesota Hazardous Waste Permit for the Sperry, Defense Systems Division (DSD), Sperry Park Facility to operate a hazardous waste storage facility at 3333 Pilot Knob Road, Eagan, Minnesota. Sperry has been legally storing hazardous wastes under interim status, as provided for in Minn. Rules pt. 7001.0650. Issuance of the permit will impose the more stringent requirements of Minn. Rules ch. 7045 on the facility. The MPCA is inviting public comments on Sperry's permit application and on the terms and conditions of the draft permit. Locational issues, with the exception of seismic and floodplain considerations, are not within the scope of review under the Minnesota Hazardous Waste Rules. The Sperry Park Facility is the main engineering facility for its division of U.S. Defense Department computer systems. Hazardous wastes are generated in the production of semiconductors and from multiple process laboratories used for research and development work. The wastes are stored in the rooms identified in the permit application.

Sperry's permit application, the MPCA's draft permit and fact sheets are available for public inspection and copying at the Eagan Library, 1340 Wescott Road, Eagan, Minnesota. These materials and other supporting documents also are available in the administrative record at the MPCA, Hazardous Waste Permit and Review Unit, 1935 West County Road B2, Roseville, Minnesota 55113 from 8:00 a.m. to 4:30 p.m. weekdays (contact Mr. Ohman at 612/296-7280, for additional reviewing information).

Written comments on the permit application and draft permit will be accepted by the MPCA during the public comment period, which commences on June 17, 1985,

and ends on July 27, 1985. Interested individuals may submit written requests for the MPCA to hold a public informational meeting or a contested case hearing. Written comments or requests must include:

1. A statement of the person's interest in the permit application or the draft permit;
2. A statement of the action the person wishes the MPCA to take, including specific references to sections of the draft permit that the person believes should be changed; and
3. The reasons supporting the persons position, stated with sufficient specificity as to allow the MPCA to investigate the merits of the person's positions.

If a person requests a public informational meeting or contested case hearing, the comments must include the items listed above and a statement of the reasons the person desires the MPCA to hold a public informational meeting or contested case hearing and the issues that the person would like the MPCA to address at the public informational meeting or contested case hearing.

The public comment period may be extended by the MPCA Director if the Director finds an extension of time is necessary to facilitate additional public comment.

All comments or requests submitted for consideration by the MPCA must be post-marked by August 2, 1985. Comments on the application and draft permit or requests for public informational meeting and/or contested case hearing should be sent to:

Mr. Steven A. Reed, P.E., Supervisor  
Minnesota Pollution Control Agency  
Hazardous Waste Permit and Review Unit  
1935 West County Road B2  
Roseville, Minnesota 55113-2785

After the close of the public comment period, the MPCA will evaluate all comments received before issuing a final permit decision. Notification of the final permit decision will be provided to each person who submitted written or oral comments or requested notice of the decision. In accordance with Minn. Rules pt. 7001.0660, subp. E., the MPCA will respond to all significant comments on the draft permit, specify which provisions of the permit were changed and indicate whether additional documents have been included in the administrative record.

## PUBLIC NOTICE

The Minnesota Pollution Control Agency (MPCA) is hereby giving notice of its intent to issue a Minnesota Hazardous Waste Permit for the Sperry, Sperry Park Facility to operate a hazardous waste storage facility at 3333 Pilot Knob Road, Eagan, Minnesota. Sperry has been legally storing hazardous wastes under interim status, as provided for in Minn. Rules pt. 7001.0650. Issuance of the permit will impose the more stringent requirements of Minn. Rules ch. 7045 on the facility. The MPCA is inviting public comments on Sperry's permit application and on the terms and conditions of the draft permit. Locational issues, with the exception of seismic and floodplain considerations, are not within the scope of review under the Minnesota Hazardous Waste Rules. The Sperry Park Facility is the main engineering facility for its division of computer systems. Hazardous wastes are generated in the production of semiconductors and from multiple process laboratories used for research and development work. The wastes are stored in the rooms identified in the permit application.

Sperry's permit application, the MPCA's draft permit and fact sheets are available for public inspection and copying at the Eagan Library, 1340 Wescott Road, Eagan, Minnesota. These materials and other supporting documents also are available in the administrative record at the MPCA, Hazardous Waste Permit and Review Unit, 1935 West County Road B2, Roseville, Minnesota 55113 from 8:00 a.m. to 4:30 p.m. weekdays (contact Mr. Ohman at 612/296-7280, for additional reviewing information).

Written comments on the permit application and draft permit will be accepted by the MPCA during the public comment period, which commences on August 1, 1985, and ends on September 16, 1985. Interested individuals may submit written requests for the MPCA to hold a public informational meeting or a contested case hearing. Written comments or requests must include:

1. A statement of the person's interest in the permit application or the draft permit;
2. A statement of the action the person wishes the MPCA to take, including specific references to sections of the draft permit that the person believes should be changed; and
3. The reasons supporting the persons position, stated with sufficient specificity as to allow the MPCA to investigate the merits of the person's positions.

If a person requests a public informational meeting or contested case hearing, the comments must include the items listed above and a statement of the reasons the person desires the MPCA to hold a public informational meeting or contested case hearing and the issues that the person would like the MPCA to address at the public informational meeting or contested case hearing.

The public comment period may be extended by the MPCA Director if the Director finds an extension of time is necessary to facilitate additional public comment.

All comments or requests submitted for consideration by the MPCA must be post-marked by September 16, 1985. Comments on the application and draft permit or requests for public informational meeting and/or contested case hearing should be sent to:

Mr. Steven A. Reed, P.E., Supervisor  
Minnesota Pollution Control Agency  
Hazardous Waste Permit and Review Unit  
1935 West County Road B2  
Roseville, Minnesota 55113-2785

After the close of the public comment period, the MPCA will evaluate all comments received before issuing a final permit decision. Notification of the final permit decision will be provided to each person who submitted written or

oral comments or requested notice of the decision. In accordance with Minn. Rules pt. 7001.0660, subp. E., the MPCA will respond to all significant comments on the draft permit, specify which provisions of the permit were changed and indicate whether additional documents have been included in the administrative record.

Section 206 of the Solid and Hazardous Waste Amendments of 1984 (HSWA) requires that corrective actions be performed for all releases of hazardous waste or constituents from any solid waste management unit at this facility. The U.S. Environmental Protection Agency (EPA) has the authority to implement this provision. The MPCA is not yet authorized to implement the provisions of HSWA. Sperry Corporation has certified to the U.S. EPA and the MPCA that no solid waste management units, other than those that are the subject of this draft permit, exist at this facility. Information is hereby solicited regarding any solid waste management units or releases of hazardous waste or constituents from such units at this facility. Such information should be submitted to the U.S. EPA, Region V and to the MPCA. This information may be submitted anonymously. The U.S. EPA, Region V address is:

RCRA Activities  
U.S. Environmental Protection Agency  
Region V  
P.O. Box A3587  
Chicago, Illinois 60690

The hazardous waste permit to be issued to the Sperry Corporation will incorporate any applicable HSWA provisions, in addition to those requirements in Minn. Rules chs. 7001 and 7045.
